

Caught in the act!

This man was a burglar. He was caught robbing a safe, tried, and sent to St Helena Island as a prisoner in the 1890s.

To open the safe, he needed to know its combination.

Can you find out what that combination of numbers was?

The missing numbers in these sums are the combination. Work out the missing numbers and, reading left to right, top to bottom, place them in the squares below.

18	+		+	4	=	24
-		+		+		-
3	+	7	-		=	
+		+		+		-
	+	4	-	4	=	2
=		=		=		=
17	-	13	+	15	=
